Addendum #1

RFP # 7549104

TITLE: PROVIDE E-RATE ELIGIBLE TELECOMMUNICATIONS SERVICES

Submission Deadline: November 25, 2014 at 2:00 PM (Eastern Time)

BELOW ARE VENDOR QUESTIONS WITH STATE RESPONSES. NO FURTHER QUESTIONS WILL BE ANSWERED.

1. Regarding Appendix B – If there is a location that we cannot service, should that be omitted from the line pricing or does that disqualify prospective vendor from being considered as a vendor?
If a vendor cannot service a designated site, they need NOT enter a proposed offering on that line. A vendor is not disqualified for not being able to supply service to all sites.
2. Regarding Appendix B – If there is a bandwidth speed that we do not offer, should that line be omitted from the Appendix or does that disqualify the prospective vendor from being considered as a vendor?
If there is a bandwidth speed that the vendor does not offer, as indicated in Appendix B, the vendor is not disqualified.
3. Regarding Appendix B – If anything is omitted on Appendix B, will that disqualify the prospective vendor from being considered? **Vendors are to use Appendix B to illustrate sites that they can service; any omissions relating to sites listed in Appendix B does not warrant being disqualified.**
